Dear [redacted]

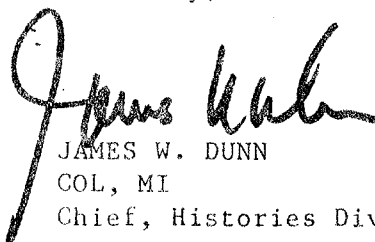

I request access to medical intelligence records, if any, for the Korean War period (June 1950 - July 1953) for [redacted] Medical History Branch, U.S. Army Center of Military History.

[redacted] project is a part of the official history of the United States Army in the Korean War. He has a SECRET clearance (see attached).

[redacted] is primarily interested in evidence relating to the germ warfare propaganda campaign waged by the Communist powers during 1952-53. He has tentatively concluded that the campaign was undertaken to cover the existence of epidemics behind the enemy lines, but feels that adequate and satisfactory evidence is not available from other sources.

[redacted] has received the cooperation of the Defense Intelligence Agency and has consulted their files. Your assistance in this scholarly endeavor would be much appreciated.

Sincerely,

JAMES W. DUNN
COL, MI
Chief, Histories Division

This appears to be a request for access to classified CIA records for the purpose of preparing an official (and presumably classified) Army history. If so, it should be referred to the History Staff (attn: [redacted]) for appropriate action.
